WILL DEVELOP MANY SMALL TRACTS

New Management of Alamogordo Company Plans Extensive Development.

PUMP IRRIGATION BELIEVED PROBABLE

ALAMOGORDO, N. M., July 18.—Changes in the management of the Alamogordo Improvement company, the original owner and promoter of this city, will, it is said, mean much towards the development of the company's interests as well as the material development of the Sacramento valley. It is now talked that it is the intention of the new manager, Col. W. R. Eldson to develop small tracts of land adjacent to the city by the installation of pumping plants. These tracts will be sold and others developed as rapidly as possible. As the company owns the electric light and power plant, it is thought that in this connection electricity will be the motive power for the operation of the plants. Nothing definite along this line has been given out as yet, but from the fact that Col. Eldson was formerly connected with the company in the capacity to which he is now coming, and understands the possibilities and needs of the valley, much credence is given by local people to the report. Enterprising citizens of this city have already planned such a move and some definite steps were taken along the lines proposed. From development made on a small scale it has been known for some time that the pumping proposition prevails throughout the valley west of this city.

and the soil is as fertile as can be found anywhere. Mr. Robert Jay, of Marble Falls, Tex., stopped over here a few days, on their way home from Elephant Butte, where they have been visiting for the past month.

Elmo Briers, Jesse Baker, Ivan Pace, Roy Nicks, Thurston Peterson, Conway Pierce, Willie Briers, Phillip Shotwell.

Dr. E. R. Jarvis, dentist, has closed a deal by which he sells his business to P. C. H. Woolley, of Albuquerque. Dr. Jarvis has been a citizen of Alamogordo for about four years, coming from Texas, to which state he will return soon after August.

Mrs. Benton Brady has returned to her home, at El Paso, after a visit of several days with her parents, Mr. and Mrs. Harvey Singleton.

WOMAN LEADER OF L. W. W.'S RESISTS ARREST AT PORTLAND

Portland, Ore., July 18.—Nine arrests of women, Industrial Workers of the World, were made on a downtown street when a crowd of 20 women, led by Dr. Marie Equi, defied the mayor's order by holding a street meeting.

Dr. Equi, a practicing physician and suffrage leader, resisted arrest and the combined strength of two policemen was required to overpower her.

A piece of gas pipe, two feet long, was used to attempt to hold her. Two other pieces of gas pipe were found on the floor of the police ambulance when it arrived at the police station with the prisoners.

Three soldiers were stabbed when a group of soldiers and sailors who participated in the military and naval football parade were attacked by a gang of men listening to one of the women agitators speaking in the street.

NEW YORK PROSECUTOR GETS MORE EVIDENCE OF GRAFT

New York, July 18.—The police graft situation was brought to the front again when Charles R. Platt, Jr., who was the so-called press agent of former police, Lieut. Charles Becker, submitted to district attorney Whitman a five-page typewritten statement reputed to be a confession of facts relating to the alliance between the police and the "system" and the underworld.

Mr. Whitman assigned one of his assistants to talk with Platt, who is under an indictment on a perjury charge, to determine if Platt's statement is worthy of a grand jury investigation. Platt's statement is reported to contain the information long sought by the prosecutor.

ATTORNEY GENERAL CLANCY IN THE CITY

Here Meeting Commissioners Who Have Been Taking Evidence in New Mexico-Texas Boundary Dispute.

Attorney general Thomas Clancy, of New Mexico, is in El Paso today. He is meeting Maj. Eugene Van Patten and attorney W. R. River, of Las Cruces, members of the commission that has recently been making a trip down the Rio Grande with a number of old time citizens and taking their depositions relative to where the river formerly flowed, for use in the suit of New Mexico against Texas over the boundary between El Paso and Anthony.

Maj. Van Patten says it got so hot in the river bottoms that the commission temporarily suspended work. He is going this afternoon to Las Cruces and will then head at once for his Drilling Springs resort up in the mountains, where he says there are no flies and no heat.

GOULD INTERESTS TO BUILD

San Francisco, Cal., July 18.—More money, lots of it—and more feeders for the Western Pacific railroad are the first things to be got following its consolidation into unified management with the Denver and Rio Grande and the Missouri Pacific railroads.

Benjamin E. Gould, president of the two latter roads, when he arrived here, this outlined the business plan of the new Western Pacific.

"The Western Pacific has got to have money," he said, "and we all know the money market is tight. Just the same, I raised upwards of \$400,000 for the Missouri Pacific and Rio Grande under far more discouraging conditions, and I don't think there are going to be any tremendous obstacles in the path of getting enough money money for the Western Pacific."

"The road now resembles a bridge from Salt Lake to San Francisco. It hasn't any feeders. We propose to build feeders for it."

Finley Shepard, Mr. Bush said, has been named to fill the vacancy on the Rio Grande directorate caused by the resignation of vice president Schlicks of the Western Pacific.

CHARGES CAPT. DOWNING WITH RECKLESS AUTO DRIVING

C. S. Mellen Resigns FROM THE NEW HAVEN

Howard Elliott, Head of the Northern Pacific, is Considered for President of Eastern System.

New York, July 18.—Charles S. Mellen has tendered his resignation as president of the New York, New Haven and Hartford railroad company and all its allied or subsidiary lines, including the various railroads, trolley lines and water lines which have become part of the New Haven systems under his management, to become effective Oct. 1, if not earlier. His resignation was accepted today.

The announcement following a long meeting of the directors, most of which including Wm. Rockefeller and J. F. Morgan, were present.

It is understood that some of the more prominent members of the board urged Mr. Mellen to reconsider his action.

Mellen, whose management of the New Haven road has given rise to considerable criticism, became president of the road in November, 1902.

Mr. Mellen's advent was the signal for a vast scheme of consolidation, embracing not only the Boston and Maine and Maine Central railways but the leading steamship lines between New York and Boston and intermediate points as well as numerous trolley lines in Connecticut, Massachusetts and New Hampshire.

Mr. Mellen is under federal indictment for manslaughter, resulting from the Westport, Conn., wreck of last year, also is hanging over him.

It is known that an influential factor in the board approves the sale of not all of its trolley roads. It is believed the New Haven also will relinquish control of the Boston and Maine road.

According to an exhaustive examination made by the New Haven system, its assets are estimated at close to \$250,000,000 against liabilities of \$294,000,000.

The name most frequently used as Mellen's successor is that of Howard Elliott, head of the Northern Pacific road.
